

Rhishabh Deshpande

Data Analytics & BI Leader | Dashboards, Automation & Cross-Functional Insights
Denver, CO | rhishabh23@gmail.com | (305 318-7466) | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

SUMMARY

Data Analytics and Strategy Leader with 6+ years of experience building scalable analytics solutions, automating reporting processes, and driving data-informed decision making in complex global organizations. Expertise in SQL, Python, Tableau, forecasting, KPI development, and executive-facing dashboards. Proven track record delivering operational efficiencies, reducing manual effort through automation, and translating large-scale datasets into actionable business insights.

TECHNICAL SKILLS

Languages: SQL, Python (Pandas, NumPy, Scikit-learn, Statsmodels, Plotly, Matplotlib, Implicit), R, HTML, C++

BI & Visualization: Tableau, Power BI, Looker Studio, Advanced Excel, Adobe Analytics, Google Analytics

ML & Analytics: Classification, Clustering, Recommendation Systems, Time Series Forecasting, CLV Modeling, A/B Testing

Tools & Platforms: GCP, BigQuery, GitHub, Jira, Snowflake, Figma, Optimizely

PROFESSIONAL EXPERIENCE

Paramount Skydance

Manager of Business Intelligence and Analytics | Denver, CO

04/2023 – Present

- Dashboard Strategy & Stakeholder Reporting:** Owned end-to-end analytics strategy and dashboard design for CBS Sports' flagship live events, translating raw operational data into actionable decisions for stakeholders at all levels, including senior leadership, across a 100M+ viewer global footprint.
- Process Automation:** Led automation initiatives through AI enabled workflows and agent creation processes that eliminated 25% of manual workflows, compressing reporting cycles and directly improving team scalability, accuracy and efficiency.
- Cross-Functional Data Products:** Partnered with Engineering, Product, and Finance teams to build in-house analytics tools and dashboards for anomaly detection and forecasting, reducing third-party tooling costs and improving decision speed.
- Experimentation & Causal Inference:** Spearheaded A/B testing and causal inference frameworks to evaluate process and product changes, driving measurable gains in key engagement and efficiency metrics (+5% retention, +20% revenue).
- Team Leadership:** Mentored a team of BI analysts through strength-based delegation and active roadmap planning, resulting in multiple promotions to senior roles and expansion of analysts' scope of work.
- Revenue Growth:** Quantified subscription and ad revenue opportunities, such as adding a pinned muted auto-play VOD player to high traffic pages and optimized ad break positioning, generating a +25% lift in ad revenue monetization.
- Process Optimization:** Collaborated with operational stakeholders to provide data-driven context on live event and post match show sequencing, optimizing user handoff between stages, driving +20% improvement in channel monetization.
- Cost Attribution Framework:** Engineered an attribution framework tracing streaming cost and revenue outcomes back to upstream drivers, integrating multiple data signals to provide evidence-based justification for major investment decisions.

Senior Business Intelligence Analyst | Denver, CO

09/2021 – 04/2023

- ROI & Investment Frameworks:** Shaped evaluation frameworks adopted by leadership to assess multi-million-dollar investment decisions across NFL and UFC, rights directly supporting strategic deal-making and resource allocation.
- KPI Development & Executive Reporting:** Owned KPI design and reporting for executive leadership and cross-functional teams, cutting reporting turnaround by 25% and serving as the primary analytics layer for organizational decision-making.
- Predictive Modeling:** Built Customer Lifetime Value models in python that reduced targeting costs by ~10%, by enabling precision targeting toward the highest-retention audience cohorts, improving both efficiency and long-term subscriber value.
- Partner Analytics:** Analyzed content performance across external partners including Samsung TV+ & Roku Channels to identify cost and efficiency trends, arming leadership with negotiation leverage that improved contract terms by +10%.
- Machine Learning & Segmentation:** Deployed ML models to cluster populations into behavioral cohorts and identify high-risk segments, enabling targeted and data-driven interventions to serve personalized content.

Business Intelligence Analyst | New York, NY

02/2020 – 09/2021

- Forecasting and Anomaly Detection:** Identified trends and anomalies in multivariate data by building iterative time series forecasts for budgeting and planning, achieving <4% Mean Absolute Percentage Error (MAPE).
- Analytics Infrastructure:** Developed the analytical code framework for live channels from the ground up, facilitating real-time scalable and profitability decision-making across millions of global viewers.

Wasserman
Intern, Analytics and Global Strategy | Los Angeles, CA
05/2019 – 08/2019

- Athlete Representation Strategy:** Partnered with the COO to integrate data analytics into the agency business, crafting statistical narratives used by agents to pitch clients during NBA Free Agency, Drafts, and MLB Arbitration.
